Summary

Aspiring **Software Engineer (AI/ML)** with hands-on experience in Python programming, deep learning, and machine learning model design and development. Skilled in applying algorithms, using Python libraries such as **NumPy, Pandas, TensorFlow,** and prompt engineering. Passionate about problem-solving and leveraging GenAI to build intelligent and data-driven solutions.

Technical Skills

Programming Tools: Python, Flask, HTML/CSS, JavaScript, React.js, SQL, VS Code, Jupyter Notebook, Excel (Advanced), GitHub.

Machine Learning and AI: Supervised/Unsupervised Learning, TensorFlow, Scikit-learn, Pandas, NumPy, GenAI, LLMs, Prompt Engineering, AI/ML Techniques, NLP, Data Preprocessing, Deep Learning.

Cloud Platforms: AWS (Basics), IBM Cloud, Azure.

Other Skills: Debugging, Agile, Problem Solving, Team Collaboration.

Experience

Tata Group – Data Visualization Intern | May 2025

- Gained practical exposure to data visualization techniques and analytical storytelling using real datasets.
- Designed interactive dashboards and developed insights using Python and visualization tools.

JOVAC – Exploring Data Science Trainee, GLA University | June 2022

- Completed hands-on training in Data Science and Machine Learning.
- Worked on small-scale ML projects involving data preprocessing, model building, and performance evaluation.

Projects

Predicting Interest Level of Rental Listings – Machine Learning

- Built a predictive model for property interest levels through data cleaning, analysis, and visualization using Python, Flask, Matplotlib, and Seaborn to identify key market patterns and trends.

InstaBuild – Business Website

- Developed a responsive business website demonstrating LGSF steel frame house techniques with a secure user data capture system using HTML5, CSS3, JavaScript, and PHP.

Certifications

- **IBM National Hackathon**- CODEWAR23 (UPES).
- **Exploring Data Science**- Gold Medalist (GLA University).
- **Web Development** - Johns Hopkins University (Coursera).
- **Introduction to Generative AI**– Google.
- **Programming Essentials in Python**- Cisco.
- **Robotics**– Infosys.

Education

- **B.Tech– Computer Science Engineering** (Specialization in AI&ML), GLA University, Mathura — Sept 2020 – May 2024
- **Intermediate-** Tiny Tots Inter College, Tundla **|** 2020
